

SWEET

For after-dinner sipping, Ontario's Late Harvest Vidals offer a slightly less sweet alternative to their famous cousin, Icewine.

COLIO ESTATE 2006 Late Harvest Vidal VQA • LCBO 470369, 375 mL, \$12.85

STYLE: Sweet, easy sipping. The winter-hardy Vidal grape is the backbone of Ontario's Icewine industry, but I'm surprised that wineries aren't more creative with this grape. Its reliability, wonderful peach and caramel flavours, and general yumminess could be adapted to a great variety of wine styles. Especially some everyday-priced offerings. Such as the moderately sweet Vidal from Colio winery. Perfect with biscotti or almond cake—or to sip anytime. Chilled of course. Best-value sweet wine in the world. **FD**
